Customers and users

- Formation in 2007
- Head office as well as development and production in Pforzheim, Germany
- 2014 Expansion of production and office space at 1.200m²
- 2016 Expansion at further 800m²
- >80% of all products can be supplied as stock goods
- Certified according to DIN EN ISO 9001, DIN EN ISO 14001 and DIN EN ISO 50001
- High quality and reliable products with sophisticated product development and reliable partner network
- Development, manufacture and marketing of energy-efficient and sustainable lighting solutions for industry based on the latest LED
- Profound special solutions for lighting in mechanical and plant engineering or for the development of lighting concepts for series products, such as automobiles

Development

Production / Quality management

- LED2WORK GmbH develops and produces all the luminaires itself
- Starting with the thermal management of the basic element, to the respective IP protection class to the installed electronics: all the steps performed inside LED2WORK, or by established, long-standing partners in Germany
- Adhesions be made automated for a constantly high product safety
- Constantly quality assurance during and after production processes
100% controlling all products and function
- The incorporated LED technology comes mainly from Seoul Semiconductor (SSC), Nichia and Samsung. SSC and Nichia belong to world´s leading LED manufacturers
- The LEDs are purchased and assembled as complete modules according to our specifications in Germany
- The LEDs used by LED2WORK are characterised by a very narrow binning (almost no variations in the colour temperatures and brightness values), a high Ra value (at least > 80), as well as excellent efficiency (at least > 90Lumen/Watt)

Products und Applications

Products

- LED workplace Luminaires
- LED magnifier Luminaires
- LED machinery Luminaires
- LED signal Luminaires
- LED system Luminaires

Applications

- Mechanical and plant engineering
- Automotive
- Railway / rail transport
- Industrial workplaces / test stations
- Premium Jewellery / watchmaker
- Medical/clean rooms /
Dental laboratories
